1. Some ways we can declare success in data science include (check all that apply):

1 point

- ☑ Decisions are made based on the data analysis.

- ☑ New knowledge about the phenomena under study is created.

- ☐ The results of the analysis are uncertain and conclusions are not clear.

2. Learning that the data in question can't answer the question being posed is a useful result of a data science experiment

1 point

- ☐ Not true

- ☑ True

3. Data products and apps are useful for creating impact of a data science experiment

1 point

- ◉ True

- ○ False

4. A negative outcome from a data science experiment would include

1 point

- ◉ The data is ignored despite having clear evidence.

- ○ New knowledge is created.

- ○ A high impact app is made.

- ○ Policy is enacted based on new data.
